

**60 Minute Affiliate - How To Shamelessly Profit As An Affiliate In Just 60 Minutes A Day 5 Days A Week Max!**  
Copyright 2007 [www.60MinuteAffiliate.com](http://www.60MinuteAffiliate.com)

Dear Future 60 Minute Affiliate,

You are about to learn the secrets to becoming a super affiliate in just 60 minutes a day five days a week!

That's right, 60 minutes a day, five days a week, because affiliate marketing should NOT be your whole life. You must spend time with your friends, family and loved ones and be happy in all parts of your life. The methods that I reveal in this affiliate marketing guide will show you how to earn money in affiliate marketing with as little effort as possible.

The weekends are yours to do with what you will.

If you have got just one hour a day five days a week that you can devote to affiliate marketing you can make money...and in time you could even replace your income if you're working in a normal "day job".

While I have been involved in internet marketing for around six years now, it is only in the past 10 months that I have really been focussing on affiliate marketing. During this time I have worked full-time in my "day" job and have had time to spare for my husband and three kids!

I recently broke the \$100.00 a day mark and have even had some \$350 days and this week I had my first \$550 day and today I've had my fourth \$350 day in the last 40 days, primarily from bum marketing, though I do have one PPC campaign but it is only set at a \$10 daily budget.

I used to devote **a lot more time** to my internet marketing efforts but saw little reward and missed out on a lot of free leisure time.

As a result, I decided to change my focus and work smarter and not harder. I also had very little money to spare at the time due to other financial commitments so I had to be really careful about where my money went (I can assure you I had already spent tens of thousands of dollars online with little reward)! Also I gave up a few years ago but in November 2005 decided to have one last crack at it!

There are a number of free and paid tools that I regularly use to automate some of the affiliate functions that I have to perform regularly and they give me more free time and make my life a lot easier so the small payoff is well worth it.

My goal is to help you work smarter and not harder, still have time to spend with your family and substantial spare cash coming in on a regular basis until you can replace your income, if that's your wish, or just double it!

Keep reading to qualify for free access to thousands of dollars worth of free bonuses at the end of this ebook.

Warmest Wishes,

Colleen Slater AKA The 60 Minute Affiliate :O)

PS: I don't want this to be an exhausting read so I will try to be as brief as I can.

UPDATE: It's July 2008 and last month I made \$8000.00 through affiliate marketing in my spare time. This week I also had my biggest bum marketing day - \$762.00 in sales.

**PPS: You have the right to give away this 60 minute affiliate report, however it may not be altered in any way :O)**

## **How To Find Buyers Who Are Desperate For Solutions**

I'm going to start with a brief discussion about how to find buyers who are desperate for some product or information that is going to make their life better.

Millions of people daily are experiencing some trauma about either a circumstance that they are involved or something to do with their appearance or health.

These people are desperate for solutions that will make all their problems go away and they will pay a price for it.

Suggested niches to start with:

- People unhappy with their appearance - ie too much hair over the body, losing hair, acne, overweight, underweight, wanting to bulk up, ugly unhealthy teeth, chronic nail biters, etc
- People who are in some kind of financial difficulty - they may need credit urgently but can't find anyone to lend them money, they may be about to lose their home, they may be desperate for finance for some reason or other (there are even a lot of searches for financing for breast implants)
- People who are wanting to improve their quality of life in some way - work less hours, have more money, start a home business, become a successful gambler, get more access to their children, get as much as possible in a divorce settlement, get a better job, have the car of their dreams, find their soulmate, bring back a lost love, etc
- People are always willing to forego spending money on themselves in favour of their children or their pets - children may have a certain disease that they need help living with (ADD) or their dog may be a constant shoe chewer, etc, you get my drift!

### **Brainstorming Potential Niches**

There are a number of ways to find out what people are desperately searching for online.

It seems that the Overture inventory tool is not as reliable as it used to be so you may use Good Keywords here or some other keyword research tool that you want to use.

There are certain keywords that will then give you what people are wanting help with.

These include keywords like:

cure

**60 Minute Affiliate - How To Shamelessly Profit As An Affiliate In Just 60 Minutes A Day 5 Days A Week Max!**  
Copyright 2007 [www.60MinuteAffiliate.com](http://www.60MinuteAffiliate.com)

help  
remove  
get rid of  
treatment  
relief  
symptoms  
remedy  
solution  
comparison  
how to  
fix  
repair  
buy  
training  
want  
purchase

Then you could use the free keyword research tool that I use that gives you a short list of the keywords with the monthly searches and the competing websites on google.

<http://297dollarebooks.com/research.php>

Ps if a sales letter comes up just refresh the page and it will come up with the tool

You can then search for keywords with low competition websites that will be easier for you to get traffic with but I'll get back to this topic shortly.

Keyword Elite will help you create large keyword lists but more importantly by using Ask.com you can actually see what solutions surfers are specifically asking for (This could be a great way to optimize your website and also to create articles on that topic). Also by using the Google suggestion tool in Keyword Elite you can find out what keywords people are searching for and clicking on in pay per click campaigns.

**More Brainstorming Tips**

There are also a range of websites that you can visit to find out what's hot right now.

They include:

Lycos 50

Dogpile SearchSpy

Yahoo Buzz

Amazon

Ebay Pulse

**60 Minute Affiliate - How To Shamelessly Profit As An Affiliate In Just 60 Minutes A Day 5 Days A Week Max!**  
Copyright 2007 [www.60MinuteAffiliate.com](http://www.60MinuteAffiliate.com)

Ehow

Yahoo Answers

Google Suggest

There are a range of high quality affiliate program directories online.

These include:

**Associate Programs**

**Clickbank**

**ShareaSale**

**LinkShare**

**Commission Junction**

Plus there are some quality affiliate programs that offer numerous websites to promote related to improving one's life in some way. **Anything to do with self-improvement** can be extremely profitable both in the short and long term.

## **Finding Out More About A Product You Are Researching**

If you want to find out more about a website that you are looking into then go to [www.alexa.com](http://www.alexa.com) to analyse the traffic to the website and their ranking. You could also go to [submitexpress.com](http://submitexpress.com) and look at their link popularity.

### **More about keyword selection and finding hot niches...**

If people are paying for traffic for your keywords then, generally speaking, there is money to be made in this market.

You can do that manually by simply going to google.com and typing each keyword individually and then looking to see if there are ppc campaigns on the right.

On the other hand, there are relatively inexpensive software tools that will allow you to do this for yourself.

There are much more expensive tools with monthly subscription fees etc but as we're trying to do things as inexpensively as possible I think this is the way to go. Both these programs also measure KEI which compares the popularity of a keyword with the number of competing pages (generally speaking).

Now when you are looking at niche keywords it is just as important to look at the competition as it is to take note of the monthly searches.

The aim is to find keywords that get high amounts of keywords with few competition on Google ie. under 50,000 competitors is ideal and anything less than that is great. Keep a list of your keywords and the results as you will need them when you create your affiliate websites.

Also, it is important to bear in mind that just because a keyword only gets a few hundred searches a month doesn't mean that you shouldn't use it. You may be able to get number 1 rankings on Google for these keywords and get a lot of free traffic with extremely low competition.

Note: Sometimes when you are doing a search for one niche you uncover a keyword that gets thousands of searches monthly with extremely low competition so be sure to keep a keyword swipe file for future reference.

Also, it is highly recommended that if you are researching niches to find out what particular products are selling well in that niche and the keywords that are searched for with that brand name. You may then be able to buy a

**60 Minute Affiliate - How To Shamelessly Profit As An  
Affiliate In Just 60 Minutes A Day 5 Days A Week Max!**  
Copyright 2007 [www.60MinuteAffiliate.com](http://www.60MinuteAffiliate.com)

domain name with the brand name in it and promote the product that way. On the other hand, you may prefer to have a more generic domain name so that you could do a review of a number of products on the page - it's really up to you!

A reliable free keyword research tool to help you can be found at [GoodKeywords.com](http://GoodKeywords.com).

## **To Blog Or Not To Blog**

You have a number of options here.

You can create a normal website which isn't a blog or you could make a wordpress blog.

However, even if you choose a domain without a blog, I would highly recommend that you install a wordpress blog into a directory on that domain because Google loves Wordpress. Not only will every post and page be indexed fast but your rankings will increase because of the regular activity at your website.

If you don't want to purchase a domain name first-off you can test the profitability of your niche by creating a free blog first through blogger or wordpress. The benefit of a domain with a blog is that you can have your front promotional page static and then do unlimited posts.

I used to purchase all my domains from Go Daddy but I discovered that [NameCheap](#) gives you free privacy with each domain so that people can't look and see which websites you own etc, so give [NameCheap](#) a go.

Tip: [NameCheap](#) has a discount code box when purchasing domains and every time I see a discount code box for any product I look to see if I can find the current discount code online at the time. When you're starting out and you have to be careful with where your money goes this can prove very helpful.

Hosting - I did a lot of research into web hosting as there were many options online. I decided to go with **Dreamhost**.

I have been with them for around 2 years now and I have not one negative comment to say about them at all.

Dreamhost webhosting provides a number of webhosting options from as little as \$9.95 a month.

Their hosting service includes:

- 97 day money back guarantee
- 24 hour technical support
- Up to 364 gig disk storage (increasing weekly)
- Up to 3.64TB bandwidth at signup (increasing weekly)
- Web based control panel
- Up to 24,000 email accounts
- Unlimited free email addresses
- Unlimited free discussion lists
- One free domain registration with whois privacy
- Unlimited domains
- Unlimited subdomains
- Plus lots more including one click installs of Wordpress

Affiliate In Just 60 Minutes A Day 5 Days A Week Max!**  
Copyright 2007 [www.60MinuteAffiliate.com](http://www.60MinuteAffiliate.com)

and other software

In my honest opinion I think you would be hard pressed to  
find better for less than \$10.00 a month

## How To Create Profitable Affiliate Web Pages That Sell

There are primarily two affiliate websites that I create:

1. A presell page that promotes just one product
2. A review page that gives a review of between 2-5 products.

They both sell well and you really need to test it out for yourself.

When I first started off with presell pages I relied on what I learnt in the Affiliate Project X ebook. That is really when my affiliate marketing life truly began online and I have Affiliate Project X really to thank for that.

The main method that I use is the Workhorse method.

Interestingly enough, one of the first Niche Marketing On Crack blogs that I created I did as a presell page. After many months I had gotten a ton of traffic but made NO sales.

After recently joining Wealthy Affiliate, I decided to redo that blog and create a review page as Kyle and Carson recommend. I was already getting traffic to the site from articles that I had written months ago.

**BOTTOM LINE:** I put the new page up about 6.30am, and I'd made a \$100.00 affiliate commission by around lunch time and within 4 days of redoing the page I had made 2 x \$100 in commissions!

So you really need to test it out. One method may not convert at all while the other will convert like hotcakes.

With the **blogger** blogs that I have created they are only a one page affiliate promotional page.

To get you started with setting up your blogs you should:

- delete the blogroll
- add your own affiliate link in the blogroll
- show at most one post per page
- show a summary of each post (best for RSS)
- install a number of free wordpress plug ins (a meta tag plug in, wordpress backup, simple tags and google site map plug in are a must).
- and add a comprehensive list of websites to ping to.

Here are a few to get you going:

Click [here](#) to download this ping list to your pc.

Also in the permalinks section of your blog you should insert `/%category%/postname%.php` as this will then make each post or page of your blog have a name that you give it rather than a long confusing blog post name.

Also in options/reading in your blog dashboard have it set only to show a summary of every post or article. That gives readers the only option of visiting your blog to read more.

**60 Minute Affiliate - How To Shamelessly Profit As An Affiliate In Just 60 Minutes A Day 5 Days A Week Max!**  
Copyright 2007 [www.60MinuteAffiliate.com](http://www.60MinuteAffiliate.com)

When you create each new post or page on your blogs I make sure my title and my post has the main keywords

There are a number of plugins that will make it easy for you to do tagging of your pages and posts. Simple tags is one of them.

I also recommend plugins that will auto hyperlink the urls on your pages and also will allow readers to easily submit your pages and posts to social bookmarking sites.

This is a good website to find out more about wordpress plugins <http://wp-plugins.net/>

As soon as you have created a new blog submit a link to it at <http://getblogs.com/> (which is a PR7 blog link directory).

SIDEBAR: let's say you have just discovered that playstation 3 is taking the world by storm or a specific Lexmark printer or canon photocopier etc or something that is hot on Ebay or Amazon. You don't need to do a ppc campaign. Simply create a free blogger blog about it, link to it in the resource box in your article and if you use the right keywords you can get the kind of traffic pay per click marketers are paying a fortune for!

## **Getting Traffic To Your Affiliate Pages Fast**

My main method for getting traffic to my websites fast is through affiliate marketing.

That has been my choice and was first explained to me in detail when I read Affiliate Project X and decided to try the Workhorse Method in October 2006!

While I time I didn't really think it was possible to earn substantial sums of money by writing articles, in 2007 I am now earning thousands every month mainly through affiliate marketing.

Now I must confess I did start writing with a bit of a frenzy but that was pretty exhausting. I then hired a ghost writer to write a few articles for me to get the momentum going. Ghost writers are relatively inexpensive and you can find some advertised at some internet marketing forums like the Warrior Forum and The Digital Point Forum.

However, as a general rule in the last couple of months I have set the goal of writing at least 3 articles every day. That is very easy to achieve and though it doesn't sound like much, in a month's time I'll have 90 new articles surfing the web.

The majority of my articles I submit to Ezine Articles as they get published a lot from there and they rank extremely highly on the web. I have noticed recently that they are really watching the percentage of keywords in the articles that I submit. A year ago you may have been able to submit an article with a keyword density of 5-6 percent without problem. However, now I've found that I usually can only put my main keywords once or twice in the articles.

However, by having the main keywords in the title up to two times they rank very well.

I also use and highly recommend Article Marketer for mass release of individual articles across hundreds of article directories across the internet.

Articles will get your websites indexed fast - I've gotten them indexed on the same day, traffic within hours and top google rankings within 24 hours with this method.

Here are a list of article directories that I recommend (the higher the page rank of the directory the better):

<http://ezinearticles.com>  
<http://www.buzzle.com>  
<http://www.articleclick.com>

60 Minute Affiliate - How To Shamelessly Profit As An  
Affiliate In Just 60 Minutes A Day 5 Days A Week Max!  
Copyright 2007 [www.60MinuteAffiliate.com](http://www.60MinuteAffiliate.com)

<http://www.1888articles.com>  
<http://www.articlesbase.com>  
<http://www.talkinmince.com>  
<http://www.article-hut.com>  
<http://www.articledashboard.com>  
<http://www.goarticles.com>  
<http://www.articleuniversity.com>

I used to do a lot of ads on **UsFreeAds** but I have not found that that has converted greatly for me though I do get occasional sales.

However, recently I decided to try something different and am now submitting unique articles there. That works well as if you are a paid member of Us Free Ads you can create html pages with as many bolded, underlined or italicised keywords as possible and you can also put header tags too.

## **Tips For Writing Niche Articles Quick**

The articles that you submit to many article directories these days have to be unique and your content only (unless you have paid someone to ghostwrite for you).

Here are some simple methods for writing articles fast:

1. Go to the article directory that you are going to submit articles to and look for articles on your topic and simply **rewrite** them word for word.
2. Belong to a top quality niche content site that sends you hundreds of private label niche articles every single month. While you still have to rewrite these articles or have them written for you, your task is a lot easier when someone else has already done the hard work for you.
3. Hiring a ghostwriter.
4. Use a software program like Content Spooler.

Also your articles don't have to be 1000 word essays. Private label articles make it easier to write articles, also you can quickly create up to 4 articles from the one plr article.

The private label sites that I personally use and highly recommend are:

**Tip:** Private label products and software can be relabelled as your own and you can start your own affiliate programs for them, even though you are not the originator of them.

Hiring a ghostwriter is easy. Do a search for article writing at the Warrior Forum or the Digital Point Forum. Look at samples of their work and get a fixed price before you make a commitment. Some will also allow you to pay a deposit first and the balance on completion. Also if you are placing a bulk order then ask to receive the articles in lots of 10 so you can check on the quality of the work.

Also, if possible I would get something from the content writer in writing that states that you are the only person who owns the writes to these articles and that they will not be given away or sold by anyone else.

If you are hiring a ghost writer I would order only a couple articles first and then submit them to article directories to see if they get through. Ezine Articles doesn't like article that sound like sales pieces so I would only order small quantities to start with.

**60 Minute Affiliate - How To Shamelessly Profit As An  
Affiliate In Just 60 Minutes A Day 5 Days A Week Max!**  
Copyright 2007 [www.60MinuteAffiliate.com](http://www.60MinuteAffiliate.com)

Content Spooler is a pretty unique article writing tool that I personally use and recommend. You can write one article and create up to 100 original articles from it. This is useful if you want to turn it into blog posts, submit it to multiple article directories or to submit it to social bookmarking and networking sites. I would not recommend, however, submitting more than one of these articles to Ezine Articles as they will say that it is not unique enough and will suspend your account.

## **How To Write Articles That Sell**

Articles that reveal the benefits or provide top tips or the latest news are always popular.

Before you even get started writing your article you need to have a compelling article title that is going to make readers want to read your full article, and ultimately click on the link in your resource box.

Here is a [link](#) to some headline shortcuts that will help you stand out from the crowd.

Remember also that your articles do not have to be long - 250 words is enough for Ezine Articles. Once you have created an introductory paragraph and a conclusion that's half your work cut out for you.

To make your articles interesting do a search for your topic in google news and also do a statistics search. Very often some very interesting facts come out. Also, do a search for your keyword and quotations because sometimes you can find some thought provoking quotes to add to your articles too.

Make sure your main keyword is in the title of the article - try and include two main keywords if you can - and try to have as many low competition keywords as possible.

Make sure your main keywords are at the very beginning and end of the article.

Try to put specific keywords that only have up to 100 searches a month with low competition throughout the article because chances are you'll rank very highly for them.

While Ezine Articles seems to be a little stricter lately sometimes in the summary you can refer to what you are offering by saying something like Keep reading to get 10 free tips to stop your hair falling out, and then refer to the free mini course in the resource box.

Another method that I use is to introduce the resource box at the end of the article before the resource box.

ie. For the latest information about so and so check out the website below now!

Ezine Articles allows you to do one anchor text to your website in the article so I recommend doing that also.

Also, bear in mind that the resource box at Ezine Articles allows you to promote two of your own websites.

You can either have another anchor text and link to your

**60 Minute Affiliate - How To Shamelessly Profit As An Affiliate In Just 60 Minutes A Day 5 Days A Week Max!**  
Copyright 2007 [www.60MinuteAffiliate.com](http://www.60MinuteAffiliate.com)

main site or you can actually promote two related products in the one resource box for double exposure!

Increase Your Sales Conversions With Powerful Resource Box Promotional Strategies

Too often I've seen author bios at the end of a good article that simply says John Smith is the owner of [www.johnsmithrealestate.com](http://www.johnsmithrealestate.com) and that's it. There's nothing compelling about that.

Try something else like...

Get even more free tips about becoming a monster on the golf course at .... where you'll learn not only how to hit power swings every time but also the secrets to getting 3 under par 95% of the time!

Also, if you are promoting an affiliate product that has its own free ecourse then promote that course in your resource box too.

You have a number of choices as an article writer.

1. You can become an expert on a niche and continually release articles on the topic
2. You can write 3-10 articles on a niche and then leave it alone and move on
3. You can write 5-10 articles on a niche and see how profitable it is and how well your site converts before you put any more effort into it.

The choice is up to you. 30 or 50 articles in one niche will get you a lot of traffic and it will peak and drop and peak and drop over time but should produce pretty regular traffic whereas one new article on one topic every week will give you a peak of traffic weekly. The choice is really up to you.

Also it is entirely up to you how many articles you want to submit in a day, week or a month. You may be happy to start with just 1 article written and submitted daily and that's great. You may want to be more intense about it and submit 10 or 20 articles daily. It's entirely a matter for you and depends upon how much time you want to devote or how much money you have to spend to pay for a ghostwriting service.

60 Minute Affiliate - How To Shamelessly Profit As An Affiliate In Just 60 Minutes A Day 5 Days A Week Max!  
Copyright 2007 [www.60MinuteAffiliate.com](http://www.60MinuteAffiliate.com)

## How To Use Your Articles To Get Buyers To Your Websites In Days Or Even Hours!

Submit original, unique articles to just Ezine Articles or a few directories and/or Article Marketer.

Alternatively, you can submit them through a software to numerous article directories.

Click [here](#) to download a free article submitter software program.

Go to <http://www.netscape.com> and submit your article urls after they've gone live.

If you want to submit to social bookmarking sites manually I recommend:

<http://www.netscape.com>  
<http://www.digg.com>  
<http://del.icio.us.com>  
<http://www.furl.net>  
<http://technorati.com>  
<http://www.fark.com>  
<http://de.lirio.us>  
<http://www.blogmarks.net>  
<http://ma.gnolia.com>  
<http://www.simply.com>  
<http://bluedot.us>

Now when blogging you need to ensure that your posts or pages are **unique**.

Don't use an article that you have already submitted somewhere else ever on your blog as it can penalize your page rank and search engine rankings.

The easiest thing you can do is simply rewrite your article summary and link to your article from your blog. Make sure you have the main keywords in the title of the posts and your affiliate link is mentioned frequently throughout the page with action phrases link **click here, visit, find out more** etc.

It helps if you have images on the page also and that your headline and introduction is not too long down the page.

I have also recently heard that linking to YouTube videos can actually help you with your SEO efforts also. I have not done anything about that myself but that's just something I've only recently heard.

There is a software tool that I recently purchased that is pretty powerful when it comes to social bookmarking marketing.

**60 Minute Affiliate - How To Shamelessly Profit As An Affiliate In Just 60 Minutes A Day 5 Days A Week Max!**  
Copyright 2007 [www.60MinuteAffiliate.com](http://www.60MinuteAffiliate.com)

There is a lot of discussion about how many times you have to do a blog post. Some people do them daily, some weekly, some hourly. It's really up to you. I would recommend at least fortnightly and see how you can best manage your time.

### **Web Directories**

Web directories can get you a lot of traffic and also a substantial amount of backlinks to your websites. The great thing about with directories is that if your site gets listed there you will get a lot of traffic. Unfortunately, though, it can take a few months for your website to be reviewed. However, the more quality sites you have linking to your websites the higher your search engine rankings will go.

Here is a list of some quality directories:

<http://www.dmoz.org>  
<http://stpt.com>  
<http://www.open-site.org>  
<http://www.femina.com>  
<http://www.portal.eatonweb.com>  
<http://www.bloggernity.com>  
<http://www.podcastzoom.com>  
<http://www.bloguniverse.com>  
<http://www.worldhot.com>  
<http://www.info-listings.com>  
<http://findingblog.com>

To find more just do a search on google for high page rank directories.

Alternatively you can go to the Digital Point forum or the Warrior Forum and pay someone to do manual or automatic submissions to directories for you.

## Social Networking Sites

You can not only get a lot of traffic but good quality links by joining sites such as:

<http://www.myspace.com>  
<http://spaces.live.com>  
<http://friendster.com>  
<http://www.digg.com>  
<http://www.pages.google.com>  
<http://www.squidoo.com>

## Link Exchanges

This is a great way to get backlinks quickly.

There are a number of choices available for you.

I personally use **Linksmaster** but here is a list of quality link exchange sites:

<http://www.build-recipocal-links.com>  
<http://www.linkdiary.com>  
<http://www.telalinks.com>  
<http://www.linkexchanged.com>  
<http://www.belinked.info>  
<http://www.linkwizard.net>

## Writing Press Releases

It is possible to write press releases as an affiliate, but it's important to check before submitting them as some sites allow it and others don't.

Quality press release services include:

<http://www.24-7pressrelease.com>  
<http://www.pr.com>  
<http://www.free-press-release-center.info>  
<http://www.prleap.com>  
<http://www.1888pressrelease.com>

### **Getting High Quality Links From Government, Education And Organizations Online**

These links are considered to be very valuable by Google.

In order to find them you need to do a search on Google for:

```
site:.edu inurl:blog "post a comment" -"comments closed" -  
"you must be logged in" "INSERT YOUR KEYWORD HERE"
```

This will allow you to post **informative** comments on education/government blogs on the web related to your topic. Now there is no guarantee that your post will get approved. However, you have a better chance of this occurring if you reply specifically to the post and have a link to your website underneath.

Alternatively, a software program like SEO Elite will help you to automatically and very quickly find educational websites to contact for a link exchange.

## How To Get Traffic Even Quicker

[Stumbleupon.com](http://Stumbleupon.com) will get your site indexed fast and a lot of traffic very quickly.

There are many sites powered by phpfox which are like mini versions of myspace. To do a search for those simply go to google and type in "powered by phpfox".

You may also find it useful submitting your websites to the following sites, depending what kind of websites that they are.

Try and time it so that your link is **on the front page on the Friday** so that you take advantage of weekend traffic.

[www.ehowa.com](http://www.ehowa.com)

[www.linkswarm.com](http://www.linkswarm.com)

[www.skooppy.com](http://www.skooppy.com)

[www.break.com](http://www.break.com)

[www.uniquedaily.com](http://www.uniquedaily.com)

[www.linkings.com](http://www.linkings.com)

[www.hitsdailydouble.com](http://www.hitsdailydouble.com)

[www.stoofoo.net](http://www.stoofoo.net)

## Join Niche Forums

Sign up to a forum that is related to your niche and post to it every single day. Have a compelling resource box in your signature. Don't sell in your posts, your questions or answers, but in your signature only.

Also, when you join a forum related to your niche in your profile link to your website. This is not only a quick way to get your sites indexed but also gets you a backlink instantaneously from a related website which Google views very favourably.

Another thing to bear in mind when posting on forums is to use low competition keywords and phrases in both your headline and your post as these can frequently also land you in the Google top 10.

## **Announcements**

Do a search of the top websites and blogs related to your niche and announce your website to them. This can be particularly beneficial if you are offering something of value free from you website.

Also niche polls are also very popular and can get a lot of traffic quick to your sites.

## **Answer Surfers Questions**

Go to websites like Yahoo answers and search for posts related to your niche and give informative answers. These questions are frequently listed in Google's top ten so you can get a lot of traffic this way.

## **Charity Site Traffic**

Though they are difficult to find, there are actually some PR9 charity/donation sites online that are after donations. When you make a donation to some of these sites you can get a link back to your website. PR9 links are about the highest rank links you could ever expect to get and Google will reward you for them.

## **Getting Traffic Fast From An Optin List**

Even though you are not promoting your own products it is still important to build an optin list of some kind.

Here are three quick traffic generators which give good results:

YourLuckyList  
Instant Buzz  
Traffic Swarm

## **More Places To Promote Affiliate Programs**

Promote affiliate programs on an exit popup of your websites

Promote affiliate programs on your thank you pages or download pages

Promote affiliate programs on 404 error pages

### **Create Your Own Viral Video**

Viral video marketing is without a doubt the future of internet marketing.

For this reason at some point you should create your own viral videos and post them on YouTube and Google Video. Be sure to have your web address on the video. Create multiple short videos relating to how to use software or just give a presentation promoting what you are offering on your web pages.

## **How To Get Free Traffic From Cloaked Affiliate Links**

It is important that you cloak your affiliate links so that it doesn't look like you are trying to sell anything to anyone and earn money from it.

One of the best tools that I use is Profit Protector which is a free download. You can download it free [here](#).

TIP: Profit protector will create a html page for you to upload to your webhost. Remember that just like any web page you can get free search engine traffic from a cloaked affiliate link page. Be sure to have low competition keywords in both your title, metatags and description.

## How To Get Started As A 60 Minute Affiliate Today

### The Go Slow 60 Minute Affiliate 30 Day Action Plan

#### Week 1

Find out what problems people are desperate to cure

Research low competition keywords using

Keep all your research in a notepad swipe file

#### Week 2

Create a free blog at [Blogger.com](http://Blogger.com)

Have your main keywords in the blog name, title,  
description tag

Create either a presell page (if you don't know the best  
way to do this Affiliate Project X reveals how easy this  
is to do)

Or create a compelling review page where you briefly  
review a number of competing products (if you don't know  
the best way to do this your Wealthy Affiliate Membership  
site reveals how)

Be sure to use action phrases with your keyword or  
solution throughout the page ie Click Here To Cure Your  
Back Pain Now; Discover More About This Powerful Head Lice  
Remedy Here

Ping your blog at <http://www.pingoat.com/>

#### Week 3

Write three to five articles on your niche blog

Submit them to Ezine Articles, Us Free Ads and SearchWarp

Bold, italicize and underline your main keywords once

Have your main keywords once or twice in the title

Put your main keyword in the anchor text

Have a compelling call to action resource box promoting  
either one of your urls and an anchor text or two of your  
sites with no anchor text

#### Week 4

**60 Minute Affiliate - How To Shamelessly Profit As An Affiliate In Just 60 Minutes A Day 5 Days A Week Max!**  
Copyright 2007 [www.60MinuteAffiliate.com](http://www.60MinuteAffiliate.com)

Announce your new blog to the world through a free press release service

Submit your blog url to [Netscape](#) and [Digg](#)

Create a free account at [StatCounter](#) and add your Statcounter code to your blog so you can analyse and monitor your traffic.

**Week 5**

Repeat your four week action plan.

Wait and see how profitable the niche is. If you start to make sales consider buying a domain and putting a blog on it either directly or in a directory of the domain.

This Go Slow Method will give you **12 new niches every year.**

**The I Want My Commissions Faster 60 Minute Affiliate Method**

Do the four week action plan in one week (outsourcing as many of the tasks as you like).

The goal here is to create a new niche blog weekly.

This method will give you **52 new niches every year.**

**The I Want It All And I Want It Yesterday Method**

Do the four week action plan in one day (outsourcing virtually all of your tasks).

This goal here is to create a new niche blog daily.

This method will give you up to **200-365 new niches every year.**

## **How To Maintain Your Traffic**

Try to submit one new niche article every week to month (more often if you can). If one niche is proving to be very profitable for you then I recommend that you submit an article on that topic weekly.

## **How To Increase Your Search Engine Rankings (For Blogs That Are Attached To Your Domain - Not Blogger or Free Wordpress Blogs)**

Try to make one post (needs only be a few lines) every two to three weeks for every blog.

Be sure to have your main low competition keywords in your title, header tags and blog post title slug.

Have a number of call to action phrases throughout the post and anchor text keywords with your affiliate link.

Have your main keywords at the beginning and end of the page.

NOTE: If you are using a free blog you cannot have a static index page like you can with a blog that is on your own domain. For this reason I recommend you leave your presell or review free blog alone and just drive more traffic to it.

However, with a blog on your own domain, have a static front page which constantly remains your sales page and blog away with ease.
